LETTER TO THE EDITOR FROM DR. GELLMAN

Dear Stimulus Staff,

Great work on *Stimulus* Volume 4!

It has been exhilarating to see the UTA community's excitement and pride as *Stimulus* continues to grow. It is wonderful to offer a creative platform related to health care. Many thanks to our students, faculty, staff, and UTA community members who have had a voice in our *Journal*.

I want to share my tremendous appreciation for the many hours of dedication from both our *Editorial* and *Design* team members of *Stimulus*, many of whom have also contributed in the past. A special ovation to our Editor-in-Chief, Cami Henyan, for her tireless efforts with Volumes 3, Volume 4, and in early planning for Volume 5!

A special note of thanks to our UTA Library staff, including Leah Mccurdy, for her assistance in bringing *Stimulus* to worldwide publication and distribution. In addition, my sincere gratitude to Dr. Williford and Dr. Shupe in the Philosophy Department, and the leadership in the College of Liberal Arts, for promoting and supporting *Medical Humanities* learning at UTA.

My hope to all present and future practitioners is this important reminder: "*there's a person in there*".

Sincerely,
Dr. G
Steven P. Gellman MD, MFA, FAAFP
